

## TOOLS FOR BOTTLE DECORATION

Bowers & Freeman are experts in creating tools for decorating plastic bottles of all shapes and sizes, for customers in the UK and overseas.

Our premium aluminium tools fully enclose the plastic bottle to ensure the highest quality of hot foil print, a very short print development time and excellent character definition.

These tools enable high printing speeds which require minimal adjustment in production, so saving time and cost. A water cooling option is available upon demand.

Our engineers offer a specialist design and manufacturing facility to create bespoke tools or to solve particular production challenges.

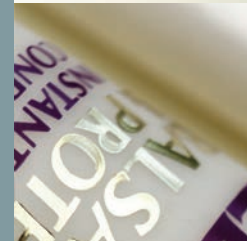

In addition, technical advice on these tools is always available upon request.

**BOWERS & FREEMAN**

ENGINEERING EXCELLENCE SINCE 1948
